

ALAGUERO

Antoine

PhD Student

About me

I am a 25-year-old PhD student based in Grenoble, specializing in research on planet formation. I aspire to leverage this expertise in a future post-doctoral position.

EXPERIENCE & EDUCATION

Institut de Planétologie et d'Astrophysique de Grenoble, France

Université Grenoble Alpes, France

2022 - Now

PhD :
Planet formation in multiple stellar systems
supervised by N. Cuello and F. Ménard

2023-2024

Teaching optics to bachelor students

2022 (March to June)

Internship :
Planet formation with the ELT
supervised by M. Benisty and F. Ménard

2022

Magisterium in Physics
Master degree in Astrophysics

2021 (June to July)

Internship :
Disc dynamics in triple systems
supervised by N. Cuello

2020

Bachelor degree in Physics

SKILLS

Professional : Personal

Teamwork

Ambitious

Outreach

Open-minded

Organization of events

Versatile

LANGUAGES

EXPERTISE

Python

Fortran

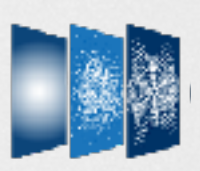

LateX
